Lease vs. Purchase?

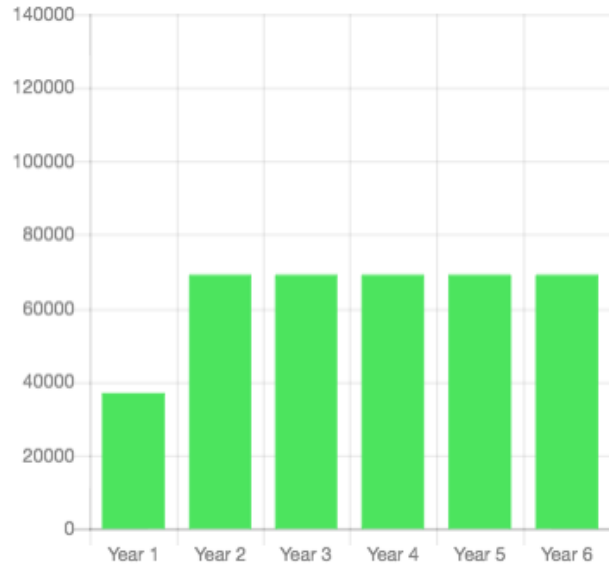

Put cash back into your pharmacy's register.

Lease

**Total Cash Surplus
Over 6 Years: \$368K***

Purchase

**Total Cash Surplus
Over 6 Years: \$382K***

IRS Section 179 allows business to take accelerated depreciation on capital equipment of up to \$1,000,000 per year. The initial (Year 1) savings on installing an RxSafe system can be significant. For example, depending on whether they lease or purchase equipment, our customers have reported cash savings ranging from \$37,000 to \$127,000 in their first tax year.

The savings don't stop there, however. Combining continued tax savings, along with the additional profit from pharmacy automation, RxSafe customers report 6-year savings ranging from \$368,000 to \$382,000 – that's more than three times the original cost of the equipment! Lease or purchase, any way you slice it, RxSafe can put cash back into your pharmacy's register!
